How we made our decision

Before we close a branch, we carefully consider and analyse how customers will be affected, including:

- How customers are choosing to bank with us
- How often customers use the branch and how this is changing
- Current services available in the branch and the branch opening hours
- Visiting the branch to consider the location and understand the alternative ways to bank in the area
- Assessing the local transport services, and how often they run
- Reviewing the broadband availability in the area
- How our customers, including those who are vulnerable or may need extra support would be affected
- We've shared our plans to close this branch with LINK who have independently assessed the access to cash needs of the local community.
