

Closing Branch Review – Part 1

Glasgow St George's Cross

Background

We continue to respond to our customers' changing needs. We now have almost 14 million of our customers accessing services through Internet Banking and almost 10 million mobile customers. Branches will remain vital in meeting customers' needs but we must continually review our network to make sure we have branches in locations where customers need and use them the most.

Our decision

Following a careful review, Glasgow St George's Cross branch will close on 20 February 2019. We have made the difficult decision to close this branch because of the changing ways customers choose to bank with us, most are already using an alternative way to bank and we have another branch close by.

How we made our closure decision

When we close a branch we complete a detailed impact analysis which will include:

- ▶ How customers are choosing to bank with us.
- ▶ How often customers use the branch and how that usage is changing.
- ▶ Current services available in the branch and the branch opening hours.
- ▶ Assessment and check of alternative ways to bank including their proximity and accessibility. This is confirmed by a visit.
- ▶ Assessment of public transport, availability and frequency.
- ▶ Impact on our customers including those who may need additional support.

What this means for you

You can continue to use any other Bank of Scotland branch and the nearest alternative is the Glasgow 54-62 Sauchiehall Street branch. This document includes a summary of our review and provides details of alternative ways to access banking.
