

Non-UCITS retail scheme Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Managed Growth Fund 6 Class L Accumulation

A sub-fund of Investment Portfolio ICVC.

The fund is managed by Scottish Widows Unit Trust Managers Limited, part of the Lloyds Banking Group.

ISIN: GB00BGJZLW60

Objectives and investment policy

The Fund aims to achieve a combination of income and capital growth by mainly investing in a portfolio of collective investment schemes to achieve broad exposure to diversified investments, including equities and fixed interest securities. Property exposure will also be achieved via exposure to collective investment schemes. The Fund will typically have high exposure to assets providing potential for growth, such as equities.

It is intended that the Fund will normally be fully invested. However, from time to time all or part of the assets of the Fund may be invested in cash, or cash-like instruments if it is felt this will be of benefit to the Fund.

The Fund is allowed to use derivatives (contracts which have a value linked to the price of another asset) for the following reasons, normally referred to as Efficient Portfolio Management (EPM):

- *to help reduce risk,
- *to help reduce cost,
- *to help generate extra capital or income for the Fund with an acceptably low level of risk.

Any income received by the Fund is retained in the Fund and has the effect of increasing the share price.

We calculate the value of the Fund at 12 noon daily on working days in the UK. Our dealing times are from 9am to 5pm each working day. Instructions received after 12 noon will receive the next day's price.

Risk and reward profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Typically lower rewards,
lower risk

Typically higher rewards,
higher risk

- The Fund is ranked at 4 because it has experienced medium levels of volatility over the past 5 years. As this fund has been available for less than 5 years, we have used simulated historical data for the part of the 5 year period before the fund began.
- The value of your investment and any income from it is not guaranteed and can go up and down depending on investment performance. Specific investment risks for the Fund are:
 - Company shares ('equities') generally offer higher long term growth potential than some other asset classes. Values can fluctuate considerably. There's a greater risk you might not get back all of your money.
 - The value of a bond / fixed interest security could fall if the issuer's credit rating falls. Values are also likely to fall if interest rates rise (but increase when interest rates fall). In addition issuers might fail to make their income payments and/or repay capital.
 - Derivatives used for Efficient Portfolio Management may result in greater fluctuations of the value of the Fund, however it is not intended that this will cause the risk profile of the Fund to change.
 - Property values can go up or down. Property can be hard to sell, and values could fall if properties have to be sold quickly.
- Further details of the risks relating to investment in this Fund can be found in the Prospectus which is available on request or at our website www.scottishwidows.co.uk

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry charge	0.00%
Exit charge	0.00%

These are the maximum charges that we might take out of your money before it is invested and before we pay out the sale proceeds of your investment. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the Fund over a year

Ongoing charges	0.27%
